The March Program: Educational, interesting, blending of arts, lots of fun!

How many of us create our art to music? Slip in a CD or tell Alexa to play our favorite play list while selecting our palette or re-filling the water jar or even firing up the blowtorch? This month's program is a blending of music and art.

Walter Griffith, President and Chairman of two Jazz groups in The Villages, will join us for a *Rhapsody in Blue*. Walter will briefly discuss colors relationships to music, and then turn us loose to listen and create! So bring your pad, markers, pens, pencils, and crayons and be ready to immerse yourself in a creative frenzy!

Of course, we need to avoid liquid media, anything that might spill, as we're not in the crafts room.
